ANDREW KRASUSKI

Software Engineer

8609192076 andrew.krasuski@outlook.com https://www.andrewkrasuski.com

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience building full-stack web and mobile applications using .NET, C, Blazor, React, Flutter, and cloud technologies. Proven in delivering production systems, managing CI/CD pipelines with Azure DevOps, and integrating AI-driven features. Strong foundation in software architecture, databases, and modern frameworks, with a passion for building scalable, user-focused solutions.

EXPERIENCE

Software Engineer

Boothwyn Pharmacy

05/2025 Kennett Square, PA

- Developed web applications using .NET, C#, and Blazor to improve internal tooling and user interfaces
- Utilized SQL Server to browse and manage patient data efficiently across various use cases
- Delivered features such as a user order system, pharmacist leaderboard, and label printing tools

Software Engineer

Conquest

06/2024 - 03/2025 Torrington, CT

- Built and delivered client-facing .NET web applications using C#, Blazor, Razor Pages, and Microsoft SQL Server
- Managed CI/CD pipelines with Azure DevOps to streamline builds, testing, and deployments
- Deployed and maintained production-ready websites for seamless client adoption

Software Engineer Intern

NB Cares

08/2023 - 12/2023 New Britain, CT

- Optimized existing React dashboard, improving data retrieval and real-time interactions
- Developed RESTful APIs for data communication and synchronization
- Worked closely with the team to review code and ensure adherence to coding standards

Software Engineer Intern

Infosys

08/2023 - 05/2024 Hartford, CT

- Developed AI-driven solutions using Python and Hugging Face to analyze and summarize code functionality
- Researched, tested, and evaluated multiple AI models to identify the most accurate and cost-effective solution

Software Engineer Intern

Jobs for Humanity

01/2023 - 05/2023 Remote, NY

- Built a Python-based system using NLP and machine learning to extract skills from resumes and match candidates with suitable job opportunities

SKILLS

Languages

Java, Python, C, C++, C#, Dart, Kotlin, SQL, Ruby, TypeScript, JavaScript, Swift, Tailwind CSS

Frameworks

.NET, React, Next.js, Spring, Node.js, Django, Flutter, Flask, JUnit

Developer Tools

Git, Docker, AWS, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Google Cloud Platform

EDUCATION

Master of Science in Software Engineering

Central Connecticut State University

01/2024 - 05/2025 New Britain, CT

- New Britain, CT

PROJECTS

Cyber Tutor | React, TypeScript, Tailwind CSS, Firebase, Python, Google Gemini, AWS, C++

An interactive application for users to learn about cybersecurity through quizzes and tailored learning experiences.
